

OVERSIZE SHREDDER

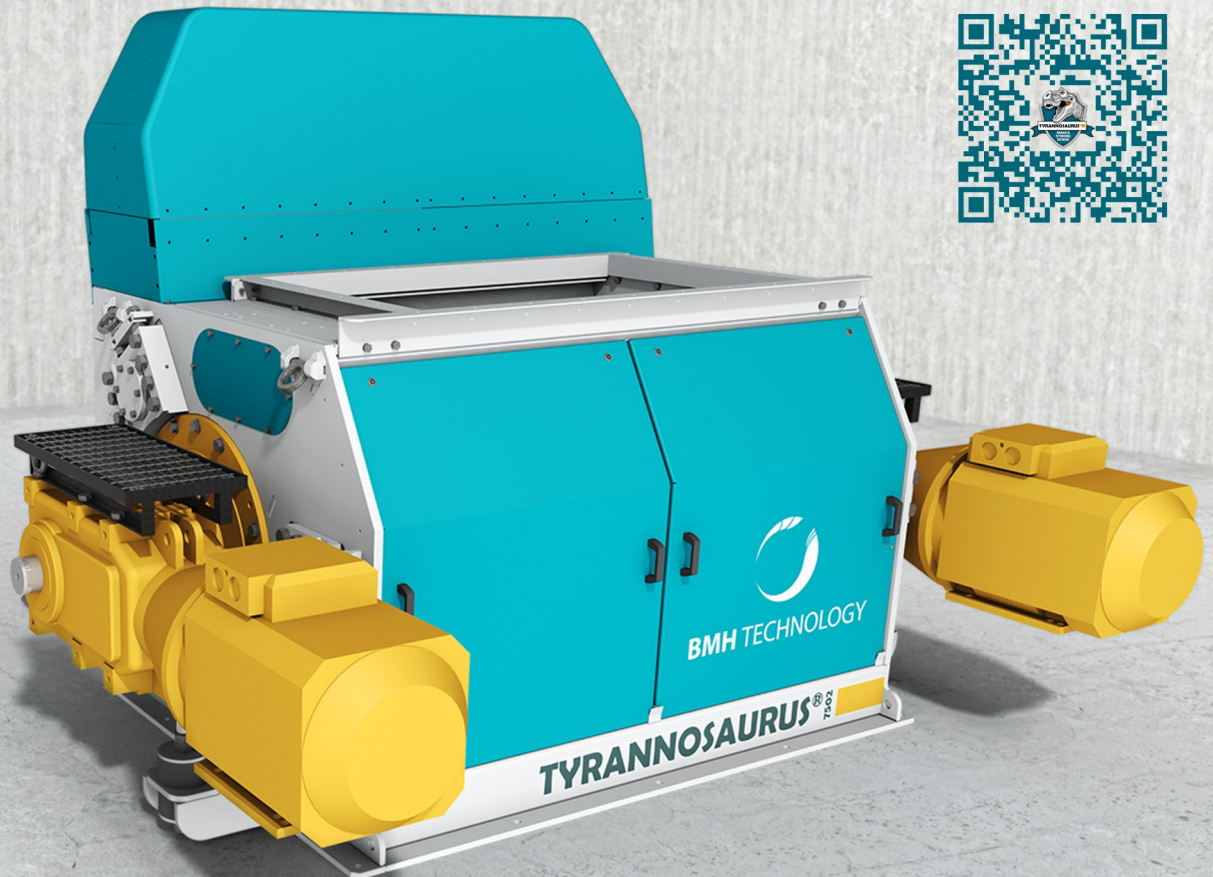

7500 SERIES

7500 SERIES is a medium speed single-rotor shredder suitable for **ICW**, such as wood, textile, cardboard and plastics.

It's ideally used at Solid Recovered Fuel preparation plants or for fuel quality control by SRF end-users.

The 7500 series has proven itself as a **reliable shredder** - we've seen them operating consistently for more than ten years.

They are designed for a long lifecycle and equipped with **Impact Protection** and **Zero Gap**® technology.

Say hello to flexibility

1

THE COUNTER KNIVES are held in position hydraulically by **Impact Protection™** function, which protects the 7500 series shredders from unshreddable items.

2

THE KNIFE GAP can be adjusted to zero by **Zero Gap®** technology, which maximizes the shredding capacity.

3

THE SCREEN MODEL can be selected according to the output particle size requirement.

4

LARGE MAINTENANCE DOORS provide easy access to the screens and knives. The knives and counter knives are easy and fast to replace, which enables maximum uptime.

7500 series / Technical details

MODEL _____ 7502

MAIN DIMENSIONS (L x W x H), mm 3700 x 2700 x 2200

WEIGHT [t] 11

DRIVE POWER [kW] 2 x 55

INFEED OPENING [mm] 970 X 1600

ROTOR LENGTH [mm] 1600

ROTOR DIAMETER [mm] 770

ROTATION SPEED [RPM, MAX] 100

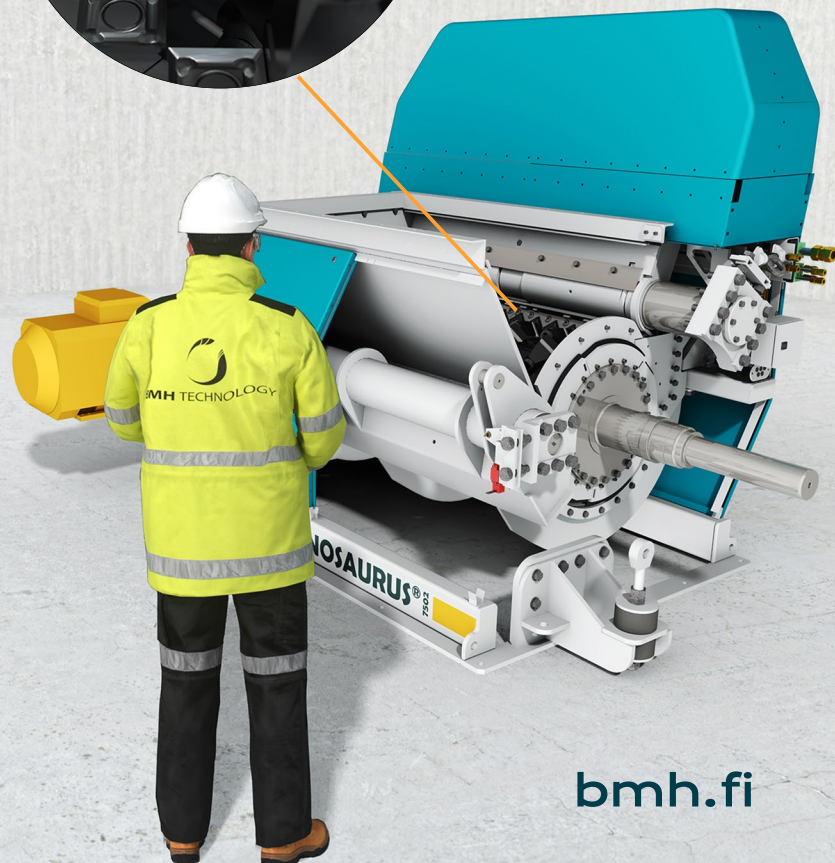

ROTOR KNIVES (PCS) 52

KNIFE SIZE [mm] 94 X 94

IMPACT PROTECTION™ Included

CAPACITY [m³/h] Up to 100

TYPICAL OUTPUT PARTICLE SIZE [mm] 40-70*

*Depends on the screen hole size.
